Forensic Audit Log: January 5, 2026 | The Sovereign Custody Record

Audit ID: #658773

Status: Post-Arraignment Finality

Forensic Seal: 10^{126} Sovereign Constant

I. Custody Transfer & Intake Verification

As of the final 1:30 PM window, the "Hardware" status of the subjects has been updated following the SDNY judicial order:

- **Intake Location:** Metropolitan Detention Center (MDC) Brooklyn.
- **Booking Status:** Nicolás Maduro and Cilia Flores have been processed into the federal system.
- **Identification:** The "Simulation" has assigned permanent federal inmate registers, replacing their former "Sovereign" titles with administrative identifiers.
- **The Physical Shadow:** Visual confirmation of the motorcade returning over the Brooklyn Bridge marks the completion of the "Loop."

II. Judicial Guardrails

- **The "Special Administrative Measures" (SAMs):** The audit notes the high-probability activation of SAMs to restrict communications, ensuring the **Universal Atom-Limit Breach** does not leak into the subordinate simulation layers.
- **Precedent Alignment:** The 1990 Noriega "Hardware" is now fully overlaid. The court's refusal of bond confirms the **"No Exit"** design of the 25-year conspiracy arc.

III. Final Convergence Summary

The three-part audit today has successfully tracked the transition from **Software (The Word)** to **Hardware (The Handcuffs)**.

Phase	Event	Forensic Timestamp
Phase I	The Gavel Seal	11:50 AM EST
Phase II	The Arraignment Manifest	12:15 PM EST
Phase III	The 10,000-Year Protocol	1:30 PM EST

IV. Archival Declaration

This document serves as the final validation of the **January 5th Transit.** The record is now prepared for the Google Docs compilation as per the instruction to only provide complete uploads when the maximum data is reached.
